People roamed around, checking out the food trucks, the Clubhouse Bake Sale and drinks at the Bar.

BCC BANNOCKBURN COMMUNITY CLUB

Bannockburn Halloween Sunday Oct 29

BCC timed everything right for Halloween. A wonderful mix of kids in costumes arrived before noon to play games that were set up in the Ballroom. At noon, Catherine Bise ran outside, saw heavy clouds but no rain—and the Parade was on! The crowd walked down the path along the Clubhouse driveway on to the sidewalk along Bannockburn Drive.

The head of the pack stopped to let the photographer catch up and the parade continued to W. Halbert but when the front of the line stopped and turned around they saw an unexpected large dinosaur that surprised them. The parade made its way back to the Clubhouse where lunch was ready and the eating and socializing began.

It was not a sunny day, but it was a great day.

Jeanine and Bob Greene, cooked the delicious BBQ chicken

Erin McCahill, Chelle Parsky, Bart Hawe, Catherine Bise did everything else.

NAN NEIGHBORS ASSISTING NEIGHBORS

NAN Sunday Series: Climate Change: Impacts, and Efforts to Contain It

November 12 Sunday, 2-4p Clubhouse

Hurricanes Harvey, Irma and Maria are our latest reminders that climate change is real, and that its implications are great. Rising sea levels combined with excess moisture in the atmosphere and slowing air currents conspired to make Harvey a major catastrophe. The recent storms did not happen by some obscure chance; we can expect more storms of similar nature in the future.

Please join Phil Jakobsberg for a presentation on the effects of climate change, and how our energy sources are changing in response to it. Phil recently attended a training for the Leadership Corps of the Climate Reality Project. He will share what he learned about the effects of climate change—the impacts of which are larger and wider in scope than many of us know and the solutions that are moving us away from carbon emitting energy. We are closer to a renewable energy tipping point than many of us might have guessed.

NAN 2018 Wise Elder Program

Pairing Whitman Students with Elder Adults

Neighbors Assisting Neighbors (NAN) is looking for seniors 70 plus to be part of our 2018 Wise Elder Program that pairs selected Whitman students with elders. Over several weeks students meet with their elders who share their life experiences and talents with their student. After the end of their meetings each student develops a presentation about their elder and what they have learned from them.

In February NAN holds its Wise Elder program at the Clubhouse where students present in their own way what they have learned from their elder.

If you are interested in participating in this year's Wise Elder Program and want additional information or would like to talk with somebody who has previously participated in the program, please contact

Marianne Ross, cinthec@verizon.net or

BCI BANNOCKBURN COOPERATORS, INC

Bannockburn Cooperators Inc (BCI) is the outgrowth of a determined group of people that got together in 1946 to purchase the 124-acre Bannockburn golf course with the intent of building a cooperative community on its grounds. Over the years as the number of families increased, BCI offered shareholder-ships to residents within a two-mile radius of the original golf course.

If you would like more information regarding your eligibility as a BCI shareholder, please contact Patty Howie at pbhowie@verizon.net or 301-320-6993.

BCI has a long-term agreement with BCC to manage and maintain the clubhouse and surrounding grounds. BCI also works closely with BCA and NAN on matters of community interest.

Implausible Dream, by Jim Mittelman

Bannockburnians are invited to a book event at Politics & Prose, 5015 Connecticut Ave, NW, at 3:30 on Saturday, November 18, featuring discussion of Jim Mittelman's newest book. Titled Implausible Dream: The Word-Class University and Repurposing Higher Education (Princeton University) and released this month, is about the problems in higher education and reforms that are more practical than the worldwide measures of excellence prevalent today. This issue deeply affects all of us because universities pass civilizational values on from generation to the next, or change them. Jim lives on West Halbert.
